Exam Option to Remove Exercises in 2023.

The option to remove up to one third of exam exercises has been extended for another year. Of course this is voluntary and is completely fine should you wish your students to demonstrate all exercises.

Please note one change to the arrangements for 2023 – those studios wishing to take advantage of this must submit to the exam coordinator a complete list of the exercises to be omitted no later than one week prior to the date of the first exam day. This is to allow our examiners to be more fully prepared on the day and to facilitate a more efficient exam experience for everyone involved.
