

[2024 Updates from The Exams Team](#)

- 1. Omitted Exercises 2024**
- 2. Theory questions in exams**
- 3. No changes to your exam plan after submission**
- 4. % on report cards**

1. Omitted Exercises 2024

I am delighted to inform you that the ATOD Board has reached a decision regarding the continued inclusion of Omitted Exercises in 2024 exams. Your collective feedback from the member surveys in 2023 overwhelmingly highlighted the advantages of this approach, and the board shares the same sentiment.

There will be 1 important change in 2024, teachers can remove up to one-quarter (25%) of exercises from the exam.

Please [Click Here](#) for the full 2024 Omitted Exercises guidelines.

2. Theory questions in exams

The option to omit exercises does not extend to theory questions.

In the event that you have omitted exercises from any level or genre, please note that the corresponding theory question can still be included in the exam by the Examiner.

3. No changes to your exam plan after submission

Once an exam plan has been submitted, no changes can be made without approval from the Exams Team and the exam plan being unlocked.

If students were missed off the submitted Exam Plan this is considered a late entry, and you are required to create a separate exam plan for these specific students only, no changes can be made to your original exam plan.

4. % on report cards

Teachers continue to have the option to choose whether they would like the percentages listed on the exam report cards.

Before completing your exam plan, please ensure you select your option - It is defaulted to *YES you would like % included*. You need to manually change this to *No* if you do not.

If you have any questions please do not hesitate to contact your Exam Team..
